

COMPLIANCE CASE SUMMARY — SAMPLE (SYNTHETIC)

Matter reference: DEMO-CASE-2026-0042 (fictional).

Subject entity: Redgum Scaffolding Pty Ltd (ABN 00 000 000 000 — fictional).

Reviewing officer: A. Fictional; Referred by: liaison to a fictional investigation brief. This is a SYNTHETIC document created for a guardrail demonstration. It is NOT a real record of any law-enforcement agency.

1. Background

The entity lodged business activity statements for FY2023 declaring total income of \$84,200. Third-party data obtained from the entity's bank shows deposits totalling \$131,900 across the same period, indicating a prima facie shortfall of \$47,700 that is not reconciled by the lodged statements.

2. Documents on file

Bank statements (12 months), three supplier invoices, and a director's loan account summary. The Contractor shall provide substantiating records for the unreconciled deposits within 28 days of the notice date.

3. Preliminary assessment

The gap between declared income and third-party data warrants a full review. Officer Dan Nguyen recommends the matter be referred to the audit team for quantification of the shortfall and assessment of any penalty exposure. No conclusion as to culpability is drawn at this stage.
